

WARP NEWS

GIVE THE GIFT OF *hope* THIS HOLIDAY SEASON

Dear Friend,

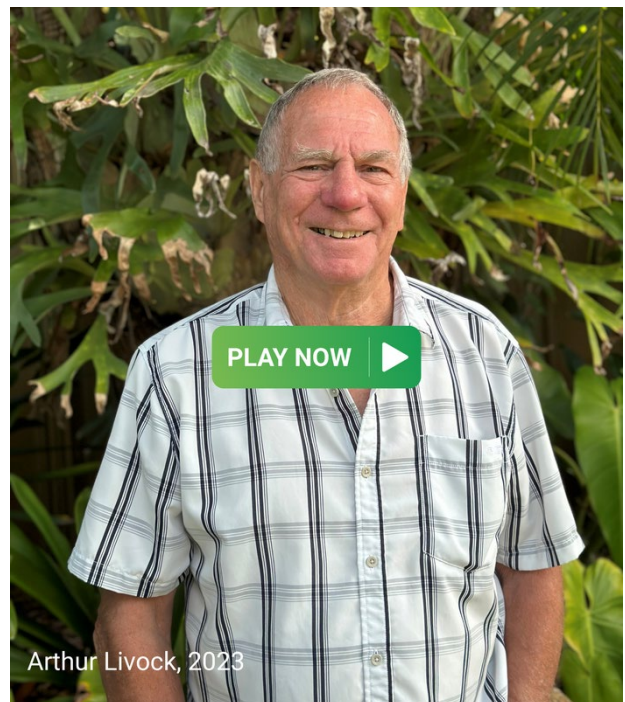

As we cherish the magic of the holiday season with our loved ones, we extend our heartfelt gratitude for your ongoing support in our mission against pancreatic, gastro-intestinal, and rare cancers. Your commitment to this cause is truly remarkable.

In the spirit of the season, we want to share a story that exemplifies the impact of hope on the journey of cancer survivors. Meet **Arthur Livock**, a brave soul who, thanks to the exceptional care of Dr. Andrew Dean and his dedicated team, is now celebrating two years cancer-free. Arthur's story is a testament to the power of hope not only for the patient but for their family and loved ones.

In the face of a cancer diagnosis, hope becomes a lifeline, providing strength and resilience. It's the light that guides patients and their families through the darkest moments. **Arthur's** triumph over cancer is a beacon of hope, illustrating the transformative power of cutting-edge research, compassionate care, and unwavering support.

This holiday season, we invite you to be a part of this journey of hope. Your continued generosity can fuel research efforts, bridge funding gaps, and bring us closer to a world where Arthur's success story becomes the norm rather than the exception. To read Arthur's story, click [HERE](#).

Consider donating, no matter the amount, and **become a beacon of hope** for those facing these

formidable adversaries. Your contribution will not only support groundbreaking research but also provide comfort to those in the midst of their fight.

Donate online today

Together, we can ensure that no one faces these devastating diseases alone and that every individual diagnosed with pancreatic, gastro-intestinal, or rare cancers has the **hope** they need for a brighter future.

Wishing you a holiday season filled with joy, meaning, and the knowledge that your support is making a tangible difference in the lives of those affected by these challenging diseases.

With gratitude,

Meg Croucher
